

# Auto**Poster**Pro

Post to Facebook Marketplace **10x Faster**

Trusted by 100+ Canadian Dealerships

# The Problem

## Manual posting takes 15-20 minutes per vehicle

Copy-paste details, download photos, re-upload, write descriptions...

## Duplicate content triggers shadowbans

Facebook flags repeated descriptions, limiting your reach

## Staff time = money walking out the door

Your team should be selling, not typing

## Inconsistent, boring listings

Generic descriptions don't sell cars
